Sender : Kalrav School, Halol.

## SMS

With this module you can send SMS to parents regarding exam results, lack of attendance, holidays, misbehaviour or misconduct instantly.

## School Accounting System

Account Management section provides you the facility to wrap up the full accounts of the school under one module. In this section you have the facility of creating vouchers, daybook, cashbook, journal, profit & loss accounts, balance sheet and many more.

## Library Management System

Library Management Module allows you to carry all the manual library tasks related to the library like issue/return books easily and diligently. The librarian can add/update/delete/search books and book details and description through the system. The Library books barcode scanning can be used for issuing or returning a book, thus saving time in searching of the books and avoiding the long queues within the Library.

## Various Kinds of Customized Reports

You can create different types of customized reports like administrative, management etc.

## Aum Classroom..... The Learning App

Today's children are called digital natives as they born and brought up in an environment surrounded by mobile phones, tablets, and laptops. They learn by watching videos on Youtube, enjoy audio-visual communication modes and have limited attention of spans.

Aum ClassRoom creates a holistic learning environment that makes learning an engaging and interesting process. When you partner with Aum ClassRoom, your school stands reassured of its impeccable track record to help your school make a smooth transition to technology-enabled teaching and learning.

### Digital Content - Video Lessons

These are rich-media 2D-/3D-animated videos that make it easy for students to visualize all the tough chapters in the curriculum and help to bring the abstract concepts to life.

- Improves teacher effectiveness and productivity in class.
- Makes learning an enjoyable experience for students.
- Enables instant formative assessment of learning outcomes in class.
- Improves academic performance of students.
- Enables teachers to instantly assess and evaluate the learning achieved by their students in class.

At home, Students can access the content through Aum Online, a portal dedicated to provide the smart class schools. The Aum ClassRoom system includes a virtual school, where parents, teachers and students can communicate with each other. Teachers can upload assignments for students to download, and make available important information for parents to view.

## Dynamic Website

We pick the web tech. for development, which suits your requirements. Our unique concepts, easy accessibility, fine look, creating a center of attention, SEO are the fundamentals that we will use before any website design.

We provide cheap & best web hosting to our customer in India. We understood that, small companies needs low cost website hosting, thats why we have come up with affordable hosting plan for our customers.

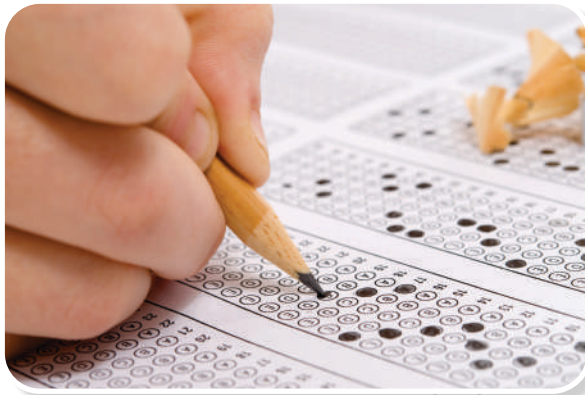

## Mobile App - My School ERP

MySchoolERP app makes life easy for students, parents, teachers and management through a set of most advance yet easy to use features like attendance, homework, announcement, fee, exam scheduler, time-table, gallery album, leave apply, Inquiry and many more.

You can easily distribute notes, homework, assignments; maintain records of grades & late submissions. Allow students to access resources via Mobile App.

## OMR Sollarion

Optical mark recognition (is also known as optical mark reading and OMR) is the process of capturing human-marked data from document forms/sheets used in exam or in tests. Software is very user - friendly & can be used on any computer installed with Windows operating system. Our OMR software has in-built utility to create & design OMR sheets on your own which can be later printed on any kind of printer of your choice. No need purchase specific, pre-printed OMR sheets

from us or any other vendors. This OMR software speedily processes OMR sheets. With 100% of accuracy. Multipage OMR sheet support. All type of paper sizes are allowed.

After login in to the application user can see below mentioned module.

- |                              |                       |
|------------------------------|-----------------------|
| A. OMR Sheet/Template Design | D. Exam Result Report |
| B. Exam Master               | E. Exam Result Edit   |
| C. Read/Scan OMR sheet       | F. Result Analysis    |

## Online Examination

You don't have to waste too much time for administration and examination, so you can focus on teaching. The only thing you need to use our online exam tool is internet connection.

- Exam generation in terms of levels as easy / medium / hard
- Auto and manual mode of generating question papers
- Various performance based analysis reports
- 100% paperless and most efficient exam system
- Facility for the students to generate exam for practice
- On the spot result with analysis reports
- We offer a lot of question types and a wide range of settings.

## Biometric Attendance and Security Systems

We are providing Time – Attendance solutions for Schools, Colleges, Banks, offices and other institutes. Our biometric time and attendance system not only enhances security amongst the workers but safeguards the working environment along with protecting a company's valuable data. Our biometric machine acknowledges an individual's physiological features like fingerprint, iris and face detection to register the attendance, thus eliminating any manipulation via proxy attendance at the workplace.

- Time-Attendance Management for different shifts
- Reduces the cost and manpower
- Provides real-time information
- Restricts unauthorized access
- Managing leaves and holidays efficiently
- Complete reporting of the employee details
- Centralized Data Collection of multiple locations
- Cloud Based Platform to access the data anytime anywhere
- Report generation on employee attendance
- Personnel-wise live attendance tracking and monitoring
- Report Scheduling
